

Izaro, one of the best olive oils from Latinamerica

Bronze Medal Medium Fruit Category

Oro Chile Latinamerican Olive Oil Competition 2014

In 2014's edition of Oro Chile Latinamerican Olive Oil Competition, Izaro was awarded with a Bronze Medal in Medium Fruity Category, being therefore among the nine best olive oils produced in Latinamerica.

The competition, which is yearly organized by CEPEDEQ (Center for Investigation and Development of Chemistry of the Universidad de Chile), started in 2011 with the aim of contributing to the competitiveness of the national olive oil industry.

This year's competition involved more than 70 samples, which were evaluated by a panel of experts accredited by the IOC. The olive oils were divided into three categories: "Light Fruity", "Medium Fruity" and "Intense Fruity". Only three medals were assigned per category, which guarantees the Premium quality of Izaro Premium Blend.
